Dear Parent/Guardians:

As per the NYS Department of Health, in order for the counselors at Camp Northstar to apply our sun block and insect repellent to your camper we will need written permission from a parent or guardian. Since we spend much of the day outdoors it is very important that your camper has access to sun block and insect repellent.

If you wish to have your camper only use their own sun block and insect repellent then it is very important that you send it with your camper. If you give Camp Northstar permission to apply then we will have our own supplies to use.

Thank you for your cooperation.

Sincerely,

Linda Arminio  
Camp Director

I hereby give permission for Camp Northstar Counselors to apply sun block and insect repellent to my camper.
